

# Amazing Profits for those who know OLD MONEY!

There are single pennies that sell for \$100.00. There are nickels worth many dollars—dimes, quarters, half dollars and dollars on which big cash premiums are paid. Each year a fortune is offered by collectors for rare coins and stamps for their collections. The prices paid are amazing

IT DOES not seem possible that a single silver dollar could be sold for \$2,500.00. Yet below is an illustration of one such coin for which we paid Mr. Manning exactly that price. It was an 1804 dollar which was originally picked up in circulation and which is much in demand by collectors, and we readily paid this small fortune to secure it for one of our customers.

## \$140.00 to This Farmer's Wife for Three Old Coins

Interesting, and entirely truthful stories, of the tidy sums—often, in fact, small fortunes—that have come to those who have picked valuable old coins and bills from circulation, or found them among their keosakes, can be told almost without end.

Famous 1804 Dollar for which we paid \$2,500 to Mr. Manning

Near Fulton, Missouri, lives Mrs. Harvey, farmer's wife. At a produce house, to which she had brought her produce, three old coins were placed in her hand. A few weeks later the "Fulton Sun" announced in its columns that fortune had smiled on this lady. She had sold those coins "to a Numismatic Company in Texas" for \$140.00 cash.

## \$800.00 Paid to a Ticker Agent for a Single Old Coin

Such old coins show no favoritism in the good fortune they bestow. Farmers, merchants, lawyers, mechanics, bankers, students, clerks and housewives have profited. People in every walk of life have found rich reward waiting for them when those valuable old coins have come into their possession.

Through the window of the office where he sold tickets in Brooklyn Bridge, an old half-dollar came to M. L. Holstein. That single coin put \$800.00 profit in this ticker agent's pocket. And just recently we read in the newspapers of the country where Mrs. Frank G. Hadame, wife of the owner of a movie theater in Waycross, Georgia, received in change a dollar for which "a Fort Worth coin dealer" offered her \$1,200.00 cash.

William Sullivan, New Haven, Connecticut, was offered \$2,500.00 for a single coin which he was for-

tunate enough to find. In Philadelphia, a gentleman did nothing more exciting than to purchase a cigar only to find that in the change given him was one coin for which \$200.00 was paid.

C. W. Lewis of Burlington, N. J., sold a single penny for \$200.00. Andrew Henry of Lewiston, Idaho, received a like amount for a similar coin. The expense for another year at college was provided to J. D. Martin of Richmond, Virginia, by the \$200.00 which we paid him for a single copper cent.

For this single copper coin, we paid Julian Martin \$200 in cash

## Old Coins Offer Rich Rewards to Those Who KNOW Them

Anne Heekert received \$112.50 from us for two coins, the face value of which was but \$10.00. W. F. McAlip sent us an old \$2.50 gold piece and we sent him \$40.00 in payment for it. Mrs. G. F. Adams was paid \$740.00 for a small collection of coins. We paid \$700.00 to Mr. Bloomer, New Orleans, for one \$10.00 gold piece. Mrs. Dorothy Prince of California received from us \$100.00 cash for a certain silver dollar of 1870. And so we might go on and on, relating these interesting stories of the large

For two coins like the above we paid \$112.50 to Anne Heekert

profits that have been paid to those that have been made the richer by knowing when they held a valuable coin.

## Where Do Such Coins Come From? What Is It That Gives Them Value?

Valuable coins are often originally picked up from circulation by some fortunate person. These coins travel from hand to hand, often for years, with those who receive them passing them out again unconscious of their real value, as was the case when a

movie fan in Waycross, Georgia, passed out in payment for a ticket a dollar for which \$2,500.00 was afterwards offered. Many people, at times, have carried such coins in their pockets—coins that would have brought them a handsome figure had they simply been posted on values.

To get profit from old coins requires knowledge regarding them and their values. Frequently a handsome reward will slip through the fingers, solely because the owner of a coin lacks this information. Such was the case with a coin that had been passed merrily on its way for many years before it was turned into the U. S. Subtreasury at Cincinnati and was redeemed by the Subtreasurer. Every one with a One Dollar bill—Any one of those who had handled this coin might have sent it to us and been \$100.00 richer for having done so.

1913 Liberty Head Nickel (not Buffalo) will bring \$50 in cash

## Only Those Who Know Shall Be the Ones to Profit

Contrary to what many people think, it is neither size, nor age, nor metal, nor face value that determines the price offered for a coin. Scarcity of the coin and the state of preservation determine prices.

Age has little to do with value. Coins of very recent date are among those commanding high premiums. Such is the case with the 1913 Liberty Head Nickel (not the Buffalo type) for which we will pay \$50.00 each. For 1804 Dimes of the San Francisco Mint, we will pay \$700.00 each. For certain silver dollars up to as late as 1904 we offer premiums ranging from \$1.50 to \$75.00 according to variety. And there are many, many others of equally recent date.

1804 "S" Mint Dime can be sold for \$50 in cash

Coins that call for big prices are among the coinage of every country. U. S. Coinage is filled with coins that if sold at their premium value will bring hundreds and thousands of times their face value to the owner. The profits are realizable—easy to secure. It only remains for those who hope to profit to make sure they know what coins to look for and what prices to expect.

# MANY FORTUNES FOUND IN OLD COINS, BILLS and STAMPS

**Coins, Bills and Stamps—Many Hundreds of Them—That Command Big Cash Premiums Are in Circulation or Are Being Held as Keepsakes and Carried As Curios**

Take, for example, the \$5.00 gold piece of 1822 for which we offer up to \$5,000.00. Over 17,000 of these pieces were coined yet only three known specimens can be accounted for. Somewhere in someone's possession or still being passed about in circulation, there must be more of these coins—their holders ignorant of their real worth. And there are many others—literally hundreds upon hundreds of old, badly wanted and valuable coins—dollars, half-dollars, quarters, dimes, nickels and cents and many bills and stamps—that are drifting about because people do not know values. ALL THESE COINS WE WANT, as we have a ready sale for them.

People who fail to post themselves on the values of old money surely deprive themselves of possible large profits. What else can be the case when an 1804 dollar is passed in to a bank for a deposit as just One Dollar. Such a case happened. It was obtained from a Pennsylvania bank by Joseph Mickley of Philadelphia who sold it for \$750.00. We offer up to \$2,500.00 for a similar coin now. Hardly a day passes that we do not read in the newspapers of coins found in circulation, or in old desks, old collections or dug up, that bring a fortune to the finder. Read these clippings from leading papers of the country. We have numerous similar clippings but these are enough to show you clearly the VALUE OF BEING POSTED.

**Saved 832 Cents for 40 Years; Gets \$50,000 for Them**

**MINT MARK ON COINS**—Coins issued at the Branch Mints have a special mark to designate the mint they came from. Coins have been issued at SEVEN DIFFERENT MINTS: Philadelphia, Dahlonega, Ga., New Orleans, Denver, Carson City, Charlotte, N. C., and San Francisco. Certain coins of some mints are of great value. We offer \$500 for 1838 Half Dollars, with mint mark "O"; up to \$100.00 for Dime of 1894, with mint mark "S";

\$225.00 for Silver Dollar of 1873, "S" Mint; and lesser amounts for many others. There are numerous coins of EACH MINT which command high premiums. Therefore, IT PAYS TO BE POSTED. A complete list with prices is found in the latest edition of the STAR RARE COIN ENCYCLOPEDIA. This is a feature not found in any other book.

## IT PAYS TO BE POSTED ON COINS AND STAMPS. THOSE WHO KNOW VALUES OFTEN REAP A RICH HARVEST FROM THE HANDSOME PREMIUMS PAID

How much do you know about coins and stamps? It may pay you to ask yourself this question. Look at the coins pictured on the border of this folder. How many of them do you recognize? Which are the valuable coins? How much should I expect to be paid? These are the things you ought to know. Many of them command a premium in excess of their face value. We paid Mr. R. W. Blundon of Virginia \$200.00 for one coin he found pictured and recognized on this folder. If you received any one of these coins in your change tomorrow, would you know what it was and what you ought to get for it? Or would you pass it on again never knowing what you really had—but lost? Thousands of coins are practically either thrown away for a trifle or passed out like ordinary coins because their owners do not know their values.

### It Pays to Be Posted

It is folly to exchange a 1799 Cent for a 1799 Dollar, simply because one is copper and the other is silver. Yet this was done not so long ago. The Cent was probably worth up to \$80.00. The Dollar would bring about \$2.50. Another man "swapped" an 1851 Silver Dollar for a \$10.00 Gold Piece of 1799. He thought that the coin would be worth more because it was gold. The Dollar was worth up to \$35.00 and the gold piece about \$15.00.

### Not All Valuable Coins Are Old

Remember, that date, metal and face value mean nothing. Not all old coins are valuable and not all valuable coins are old. You can't afford to guess about rare money. You must know.

### Rich Reward for Knowing Rare Coins and Stamps

During the thirty years that the Numismatic Company has bought and sold rare coins we have seen those who have failed to post themselves pass by the handsome profits that might have

been theirs. We have seen others, who have learned to know about coins and their values, reap rich rewards for knowing. The need for authentic information

## Old Coins and Stamps Run Into Big Money

Few people know the great extent of the business of collecting rare coins and stamps. As we have told you, we want to get these books into the hands of as many people as we possibly can who will secure and sell to us old coins, bills and stamps so that we may, in turn, sell them to collectors. Just to give you an idea of the amount of money often involved in such collections, we list here a few of the many collections which we have bought and sold in recent years:

B. W. Smith Collection, California.....	\$18,000.00
Dr. Wilham Collection, Pittsburgh.....	22,311.00
J. H. Manning Collection, Albany.....	12,000.00
James Ten Eyck Collection, Albany.....	45,368.00
Rawson Collection, Boston.....	18,500.00
Judge Slack Collection, San Francisco.....	25,000.00
G. H. Blake Collection of Paper Money.....	15,500.00
Fred Joy Collection, Boston.....	61,500.00
H. O. Mann Collection, Denver.....	42,000.00
C. H. Imhoff Collection, New York.....	11,000.00
Excell-Trowbridge Collection, Chicago.....	12,800.00
E. T. Rees Collection, New Orleans.....	14,500.00
Dr. George P. French Collection.....	50,000.00

Space does not permit to mention the many collections amounting to from \$1,000.00 to \$5,000.00. In one sale, just twenty-one large U. S. Copper Cents sold for over \$4,000.00. In another, ten U. S. Half Cents sold for \$454.00. Whether it is a single coin or bill or stamp worth a dollar or an entire collection worth a Hundred Thousand Dollars, we are ready and anxious to buy it for spot cash for our large list of collectors.

about coins is important—YOU need it just as everyone needs it. For how else can you know what these coins are and what they are worth.

Mr. B. Max Mehl, head of the Numismatic Company, is one of America's leading coin experts. His organization has been established thirty years and is now the recognized largest rare coin firm in America. His annual volume of business exceeds \$200,000.00.

### DOLLAR RECEIVED IN CHANGE WORTH \$1,250

Waycross, Ga., March 3 (P).—Mrs. Frank G. Adams, ticket-seller at a local movie theatre, and wife of the proprietor, accepted a silver dollar yesterday from an unidentified patron, gave him—or her—the proper change, and tossed the coin into the till without looking at it.

But when she checked up last night, she noticed that the dollar had been minted in 1804. It looked so unusual that she wired a Fort Worth, Texas, coin dealer about it. Today she received a telegram offering her \$1,250 for the coin.

Many valuable coins are in circulation, passing for only their face value, that would be highly prized by collectors and for which we offer big cash premiums.—Get Posted.—IT PAYS!

## It shows you how to recognize the RARE COINS which may pass through your hands and which we will buy from you for cash

Nearly everybody gets rare coins now and then. Most people don't know them when they see them—and pass them out again at their face value. The STAR RARE COIN ENCYCLOPEDIA will guard you against that, will tell you exactly how much the rare coin is worth—how much *we will pay* for it in cash above its minted value.

### You'll Profit By Knowing Coins

It means money in your pocket, because we absolutely agree to buy from you any coin, bill or stamp, of the thousands listed there, at exactly the price named.

We sell to collectors more than \$200,000.00 worth of rare coins, stamps and paper money every year. We can sell many times that amount if we can get them. Our object in putting this Book into your hands, and that of thousands of other people, is to obtain more of these old coins, bills and stamps to sell to our customers.
